

## Magic Martin

Magic Martin came into school to perform a magic show for the children. The children in Fox Class were completely mesmerised – many of the children who were often very quiet, joined in and loved it! Many of the children came out saying they wanted to be a magician and practiced their own magic tricks! There was a look of awe and excitement on every child's face! The children particularly enjoyed a ring trick, where Magic Martin joined several rings together but there were no gaps in them!
