

## Birthday party for Nails!

When learning about birthdays, we organised a party for the class dog (Nails) for the end of the week. Children wrapped presents, made cards, wrote invitations and baked some party food for Nails! On the day it was a very social occasion, we played party games such as musical statues. Children were very good about 'being out', and cheered their peers on. We played pass the parcel, where the children were excited for each other, even if they didn't get a turn themselves! All the children gave Nails a birthday present that they had wrapped up themselves! We then had party food, where children took in turns to go and collect the food. The children kindly decided that we should wait until everyone had sat down before they started eating! It was a lovely social occasion.
