

**Together we inspire, together we nurture, together we achieve.**

07<sup>th</sup> January 2021

Dear Parent/Carer,

Information regarding increasing your mobile data allowance.

The government have set up a Get Help with Technology scheme to support parents to access home learning during the current lockdown period. Unfortunately, they have not released any laptops to primary schools yet. They have only been allocated to secondary schools. We are continuing to check daily and hope that these devices will be available to us soon.

However, as part of this scheme parents are able to increase the data allowances on their mobile devices to support children accessing their home learning. Please follow the link below to read further information about this and to see if you meet the criteria to apply.

Unfortunately, you cannot apply for this yourself it needs to be sent through the school. If you feel that you meet the criteria and this would benefit your child in their learning please email the school secretary [secretary@lewannick.net](mailto:secretary@lewannick.net) with the following information:

- The name of the account holder
- The number of the mobile device
- The mobile network of that device (for example three)
- Whether you pay monthly or pay as you go
